Website Launch: A Big Thanks!

Last week, Fab & Fit launched our new website at www.sweatinstyle.com. Lansdowne resident, Larry Stromberg and the team at Threshold Technologies helped design and implement our world-wide marketing campaign - taking Fab & Fit "to the next level".

To our customers: We are also fully aware that our accomplishments are not simply attributable to "genius" leadership or hard-working employees. We grew and prospered only because of great friends like you, who gave us your loyal support along the way.

This is our thank-you note to Threshold Technologies for their patience, hard work, and hands-on approach to placing us on the Internet map. The future looks bright, and we want to acknowledge everyone's contribution to this awesome experience.

Thank you!
Kathy and Valerie
